Points of order, rulings on—
Mr. Conger made the point of order that the proposed reference of the credentials of the member-elect from Colorado to the Committee on the Judiciary was irregular, and that under the rules the same should be referred to the Committee of Elections. The Speaker overruled the point of order, on the ground that it was competent for the House to refer any subject to any committee that it might choose ... 10
Mr. Hewitt, of New York, moved to suspend the rules and adopt a series of resolutions submitted by him, after Mr. McCrary, as a question of privilege, had moved that the oath of office be administered to Mr. C. W. Buttz as a Representative from the second congressional district of the State of South Carolina. The Speaker decided that, pending the decision of so high a question of privilege as the right of a member to a seat, a motion to suspend the rules was not in order ... 11
Mr. Hoskins made the point of order that a motion to suspend the rules, for the introduction of a series of resolutions submitted by Mr. Hewitt, of Alabama, was not in order until after there had been a morning hour for the call of States and Territories for bills on leave and resolutions. The Speaker overruled the point of order, on the ground that the morning hour was the hour immediately after the reading of the Journal, and there being no Journal to read, there could be no morning hour. Mr. Kasson appealed from this decision of the Chair, and made the further point of order that the regular order of business was the reading of the Journal of the preceding day's session. The Speaker overruled the said point of order on the ground that the last session of Congress adjourned without day, and that therefore there could be no Journal to read this morning of the proceedings of the session of the previous day. From this decision of the Chair Mr. Kasson appealed; and, on motion of Mr. Hewitt, the appeal was laid on the table. The rules were then suspended for the introduction of Mr. Hewitt's resolutions; which were adopted ... 14, 15

Points of order, rulings on—*Continued.*
Mr. Banks moved that the Journal and Record be corrected so as to include the name of Mr. Plaisted in the negative on the vote on the adoption of the resolution submitted the previous day by Mr. Hewitt, of New York. The Speaker decided that it was the right of the gentleman from Maine to have his vote recorded upon the said resolution upon the statement made by Mr. Plaisted that he did vote in the negative when his name was called. Mr. Fuller asked that the Journal and Record might be further corrected so as to show that he voted in the affirmative upon the said resolution, stating that he was present and so voted when his name was called. The Speaker decided, as in the case of Mr. Plaisted, that the gentleman from Indiana was entitled to have his name recorded. And therefore the names of Mr. Plaisted and Mr. Fuller were recorded, the first in the negative and the last-named member in the affirmative, upon the adoption of the said resolution. The Speaker thereupon claimed and exercised his constitutional right to vote upon any question before the House, and voted in the affirmative upon the said resolution; the vote as corrected being—yeas 158, nays 79; two-thirds voting in favor thereof ... 41-44
Mr. Conger, as a question of order, demanded that a message of the President and accompanying documents, which had been laid before the House, be read, before its reference. The Speaker decided that every member having, under the rules, a right to demand the reading of a paper before voting on any question connected therewith, that right could only be taken from him by a suspension of the rules, which motion was not now in order, and that therefore the message and the accompanying document must be read as demanded by Mr. Conger ... 68, 69
Mr. Hale made the point of order that a resolution submitted by Mr. Wood, of New York, on the previous day, and laid over one day for consideration by unanimous consent, was still subject to a single objection, and he objected to its present consideration. The Speaker overruled the point of order, on the ground that the resolution was submitted the previous day by unanimous consent, and its consideration being then objected to, it was by unanimous consent laid over one day, and was now in order ... 112, 113
Mr. Hoar made the point of order that a telegram from Mr. Morrison, chairman of the select committee of the House on Louisiana elections, not being a report from a committee, was not a communication of a privileged character, and that the Speaker could not present the same to the House as a question of privilege. The Speaker overruled the point of order on the ground that the dispatch was presented by unanimous consent, and involving, as it did, a question of high privilege, must be disposed of in preference to any other business ... 244, 245
Mr. Kasson made the point of order that there is no legal parliamentary ground for adopting an order of arrest of an American citizen based upon a telegraphic copy of an alleged report of a committee of Congress, without any official certificate of its accuracy. The Speaker overruled the point of order, on the ground that the telegram came to him through the usual channel of telegraphic communication and presented every evidence of authenticity, and believing it to be genuine and that it presented a question of high privilege, he had accordingly laid it before the House for its action ... 354
Mr. Sayler made the point of order that Mr. Reagan, having previously consumed an hour in opening the debate upon the pending bill, was not entitled to another hour to close it. The Speaker sustained the point of order, stating, in a discussion which ensued, that he had not denied the right of a gentleman reporting a bill from a committee to open and close the debate; but he regarded that right as subject to Rule 60, which gives to any member only one hour for debate. The terms of that rule are distinct, and it is for the member making a report to so divide his time, if he chooses, that he may be enabled to use part of his hour in opening the debate and part in closing ... 542, 545
Mr. Hurlbut made the point of order that a resolution, reported from the Committee on Military Affairs, being of a public nature, was not in order on this call of committees for reports of a private nature. The Speaker sustained the point of order, and the said resolution was not received ... 754

Points of order, rulings on—*Continued.*

Mr. Wilson, of Iowa, raised the question of considering a motion to reconsider certain resolutions. The Speaker stated that the said motion to reconsider was called up by Mr. Knott on yesterday, who then yielded for a motion to adjourn, and being pending at the time of adjournment, became the unfinished business of yesterday's session, and was thereby the regular order of business after the reading of the Journal. The gentleman from Iowa [Mr. James Wilson] having stated his purpose to raise the question of consideration, which he was precluded from doing by the motion to adjourn, the Chair would now entertain the question of consideration 725

Mr. Wells moved that the rules be suspended, and that the House resolve itself into the Committee of the Whole House on the state of the Union for the consideration of the Indian appropriation bill. The Speaker held the motion to be not in order until the expiration of the hour of the member entitled to the floor, and so recognized, on the regular order, when a motion to postpone the same would be first in order 773

Mr. Holman, after debate under the foregoing ruling had proceeded for an hour, made the point of order that, under Rule 101, it was in order at any time to move to go into the Committee of the Whole House on the state of the Union for the consideration of an appropriation bill. The Speaker held that the said motion would be in order at any time except when the House was considering a special order made under a suspension of the rules, or on Monday, when, a motion to suspend the rules being in order, such motion requiring a vote of two-thirds of the members present would be first in order 780

Mr. Kasson made the point of order that a resolution submitted by Mr. Wood, of New York, referring a message from the President to a committee for investigation, was not in order except upon a motion to suspend the rules. The Speaker held that unanimous consent having been given to lay the said message before the House, the question of reference in the event of different committees being proposed was prescribed by Rule 13, and the solution, so far as it created a select committee and conferred power to send for persons and papers, was in order 811

Mr. Banks made further point of order that that portion of the resolution giving the proposed committee the right to report at any time was not in order, as the order of business prescribed by the rules would thereby be changed, which could not now be done except by suspension of the rules. The Speaker sustained the point of order 815

Mr. Holman made the point of order that as a bill reported by Mr. Lamar to extend the time for the construction of the Northern Pacific Railroad made an appropriation of lands, it must receive its first consideration in the Committee of the Whole House on the state of the Union. The Speaker sustained the point of order under Rule 112, holding that the pending bill was not only a measure touching appropriation of property incidentally, but also directly; and that it created a grant of land on a new condition, that the road should be completed within a new period. The bill was not only a measure touching the appropriation of property, but is a direct, material, vital feature of the appropriation; that time is an element to be considered in connection with the grant, and that by existing law time is the essence of the grant 923

Mr. Banks made the point of order that the last clause of a resolution submitted by Mr. Wood, of New York, viz. "to send for persons and papers," changed the rules of the House, and was not now in order. The Speaker overruled the point of order, on the ground that on the motion to commit or refer it was in the power of the House to commit or refer with instructions, and that conferring that power upon a committee was merely directing its mode of procedure. From this decision of the Chair Mr. Banks appealed; and, on motion of Mr. Cox, the appeal was laid on the table 926-928

Mr. Conger made the point of order that, under the privilege given to take the bill creating the electoral commission from the Speaker's table for reference to a select committee, the motion to recommit was not in order. The Speaker overruled the point of order on the ground that the motion to recommit was in harmony with the request of Mr. Payne, and that it neither conferred any additional privilege upon the bill or deprived any member of any privilege; that while the motion to recommit cut off amendments, the demand for the previous question being pending would also cut off amendments 932

Points of order, rulings on—*Continued.*

Mr. Durham made the point of order that no persons other than those named in Rule 134 of the House can be introduced to the floor, even under the direction of the Speaker, except by a suspension of the rules. The Speaker said that he had been trying his very best to enforce the rule, and he asked that members, without exception, would co-operate with him in doing so in the future 1057

Mr. Cox made the point of order that a motion made by Mr. Page that when the House adjourn on January 31 it adjourn to meet on February 2 was not in order, being in violation of the law which fixed February 1 for the meeting of the electoral college. The Speaker sustained the point of order that a motion to adjourn which would vacate the session of February 1 was not in order. From this decision of the Chair Mr. Page appealed, and the House refused to reconsider an order for the yeas and nays on a motion of Mr. Cox that the appeal be laid on the table 1156

Mr. Conger made the point of order that a report submitted by Mr. Thompson, from the select committee on the recent election in the State of Florida, as a question of privilege, was not in order pending a motion to adjourn. The Speaker ruled that the motion of Mr. Cox having been withdrawn, all incidental questions fell with such withdrawal, and that the motion to adjourn being incidental or subordinate to the said motion of Mr. Cox, fell with such withdrawal 1157

Mr. Crounse, Mr. Burchard of Illinois, Mr. Foster, Mr. Baker of Indiana, and Mr. Cannon of Illinois, respectively made points of order that Mr. Thompson was not entitled to the floor to submit his report. The Speaker held the appeals to be not in order, and refused to entertain the same, holding that the gentleman from Massachusetts [Mr. Thompson] having been recognized to make a report of a high privilege, was entitled to the same, and could not be deprived of it or interrupted, except with his consent 1158

Mr. O'Brien made the point of order, [on Monday, February 5,] that the House must proceed to the regular order of business, namely, the call of States and Territories for bills on leave and joint resolutions, as on the regular legislative day of Monday. The Speaker overruled the point of order, on the ground that the House could not perform an act forbidden by law; that the House having agreed with the Senate to pass a bill, which had become a law, forbidding an adjournment pending the counting of the electoral vote for President and Vice-President, the legislative day of Thursday, February 1, must continue, so far as the business of the House was concerned, until otherwise ordered, and that consequently a motion to adjourn not being in order, the call of States and Territories, being Monday's business, was not in order 1235

Mr. Conger made the point of order that an amendment submitted by Mr. Vance, of Ohio, to the printing deficiency bill, changed existing law and was not in order, the pending bill being a general appropriation bill. The Speaker overruled point of order, on the ground that pending bill was not one of general appropriation bills indicated in Rule 77, and that therefore the restrictive clause in Rule 110 did not apply to same 1320

Mr. Hale made the point of order that a resolution submitted by Mr. Blackburn, from the select committee to investigate Louisiana elections, be authorized to have evidence printed at a private printing-office, must be referred to and considered by the Committee on Printing before being considered in the House. The Speaker overruled the point of order, on the ground that there was no rule of the House which required the reference of the resolution to the said committee. 1322

Mr. Hale made the further point of order that, as the resolution involved an appropriation of money, it must receive its first consideration in a Committee of the Whole House. The Speaker overruled the point of order, on the ground that the resolution did not involve an appropriation of money, but authorized an expenditure out of the contingent fund of the House, money already appropriated 1322

Mr. Hale made the further point of order that the law (section 3785 of the Revised Statutes) required that all printing for the use of the House of Representatives shall be done at the Government Printing Office, except in cases otherwise provided by law. The Speaker sustained the point of order, and held that the proper construction of the law—upon the theory that the greater includes the less—would also forbid any printing done for a committee of the House except in the Government Printing Office 1322

Points of order, rulings on—*Continued.*

Mr. Hale made the point of order, on a motion by Mr. Lynde, that the House take a recess from Saturday, February 10, until Monday, February 12, that, under the provisions of the electoral law, a recess could not be taken, and that said motion was not in order. The Speaker overruled the point of order, and held that under the provisions of the said bill it was competent for the House to take a recess not beyond Monday (February 12) at ten o'clock a. m. From this decision Mr. Hale appealed, and on the motion of Mr. Cox the appeal was laid on the table 1486

Mr. Hale made the point of order that a preamble and resolution submitted by Mr. Knott, concerning the electoral vote of Florida was in violation of the provisions of the electoral act, and therefore not in order. The Speaker overruled the point of order, on the ground that the main question in law and in parliamentary proceedings embraced all questions upon which the previous question can be seconded and the main question ordered, and under the rules of the House the main question embraced the original proposition, an amendment thereto, and an amendment in the nature of a substitute for both 1492

Mr. Wilson, of Iowa, made the point of order that the aforesaid preamble and resolutions submitted by Mr. Knott changed a rule of the House, and was not therefore in order. The Speaker sustained the point of order, and held that under Rule 43 the said resolution was not in order 1492

Mr. Eden made the point of order that a bill reported by Mr. Jones, of Kentucky, from the Committee on Railways and Canals, under a call for private bills, being one of a public nature, was not in order under this call. The Speaker sustained the point of order, on the ground that the bill was general in its enactment, providing as it did for the collection of tolls from the public and for the punishment of individuals violating its provisions in the courts of the United States 1641

Mr. Kasson made the point of order that before action was taken on a pending resolution, submitted by Mr. Lamar, a message from the Senate must be received, the Secretary of the Senate being now at the door of the House with a message from that body pertinent to the said communication. The Speaker overruled the point of order, on the ground that the pending resolution was also pertinent to the subject-matter of said communication, and that the previous question had been demanded thereon 1665

Mr. Hale made the point of order that a motion submitted by Mr. Southard, that the House take a recess until the next day, was in violation of section 4 of the electoral act, and therefore not in order. The Speaker overruled the point of order on the ground that there was nothing in the said section or act prohibiting the taking of a recess at this time 1704

Mr. McCrary made the point of order that an amendment submitted by Mr. Knott to a motion submitted by Mr. Wilson that the House was ready to proceed at once with the electoral count was a violation of section 1 of the electoral act, which requires that when the two Houses have voted upon objections they shall immediately again meet, and the presiding officer shall then announce the decision of the questions submitted. The Speaker sustained the point of order, ruled out the amendment submitted by Mr. Knott, and the motion of Mr. Wilson was then adopted 1945

Mr. Burchard, of Illinois, made the point of order that the select committee on the privileges, powers, and duties of the House of Representatives in counting the vote for President and Vice-President of the United States had no authority to report, through Mr. Field, its chairman, a bill (H. R. No. 4633) to amend the Revised Statutes of the United States in respect to vacancies in the office of President and Vice-President, and to demand the previous question thereon. The Speaker overruled the point of order, on the ground that the resolution creating the said committee authorized it "to ascertain and report what are the privileges, powers, and duties of the House of Representatives in counting the votes for President and Vice-President of the United States," and also gave the committee the right to report at any time. The Speaker further stated that he could not conceive of a question of higher constitutional and parliamentary privilege than was involved in the bill under consideration, and he therefore held the bill to be in order at this time 1981

Points of order, rulings on—*Continued.*

Mr. Wilson, of Iowa, made the point of order that a bill cannot be read twice on the same day without special order of the House, and that the aforesaid bill had not been made special order by the House; and Mr. Burchard, of Illinois, made the further point of order that the aforesaid bill had only been read for information, and he now objected to the reception of the bill. The Speaker held that the bill had received its first reading, and that the question now under Rule 117 was: Shall the bill be rejected? 1981

Mr. Wood, of New York, made the point of order that after the House had refused to take a recess it was not in order for Mr. Sheakley to move that the House take a recess. The Speaker sustained the point of order and declined to entertain the motion. From this decision Mr. Sheakley appealed, and, on the motion of Mr. Wood, of New York, the motion was laid on the table. Mr. Sheakley again moved that the House take a recess. The Speaker ruled the motion out of order and refused to entertain the same. From this decision Mr. Springer appealed, when the Speaker declined to entertain the appeal 2007, 2008

Mr. Hale made the point of order that a demand for the previous question by Mr. Wood, of New York, on propositions concerning a decision of the electoral commission, was not in order, as the electoral act required the question to be put at the end of two hours' debate, and it was not necessary that the ordinary forms of seconding the previous question and ordering the main question should be observed. The Speaker overruled the point of order, and held that the main question, as used in the electoral law, embraced the original proposition, an amendment, and an amendment to the amendment 2019

Mr. Canfield claiming the floor as a question of high privilege after Mr. Poppleton had claimed the floor as the objector in the joint meeting to the vote of Henry N. Sollace as an elector from the State of Vermont, the Speaker declined to entertain the motion of Mr. Canfield at this time, on the ground that but one question of privilege can be pending at the same time 2027

Mr. Springer made the point of order that the business of the House could not be proceeded with until the Journal of the preceding day had been read in full and approved. The Speaker overruled the point of order, on the ground that it could not be made until after the reading of the same had been concluded, when it was subject to correction; and also on the ground that the reading of the Journal could be dispensed with by unanimous consent or by a suspension of the rules 2030

Mr. Wood, of New York, made the point of order that a paper concerning the counting of the vote of Henry N. Sollace as an elector from the State of Vermont was not in order under section 1 of the electoral act. The Speaker held that, while in his opinion a grave mistake and wrong had been committed in the joint meeting of the two Houses yesterday, by the refusal of the presiding officer to receive, even for opening and reading for information, a package which had all the surroundings of an authentic and duly attested paper in relation to an electoral vote from the State of Vermont, he was also of opinion that there was no power in the House to review the decision of the presiding officer of the joint meeting. The Speaker further stated that he was, however, of opinion that so much of the paper submitted by Mr. Poppleton as requests the return of certain papers from the Senate, alleged in the preamble to have been taken away in an undue manner, was in order. Whereupon, Mr. Poppleton modified his resolution in accordance with the foregoing decision of the Chair. Mr. Knott submitted an amendment, which Mr. Poppleton accepted. The Speaker then decided that the two hours' debate authorized by the electoral law would now commence. Mr. Canfield appealed from this decision of the Chair. The Speaker declined to entertain the appeal 2032, 2033

Mr. McCrary made the point of order that under the electoral act a motion submitted by Mr. Walling that the pending resolution be laid on the table was not in order. The Speaker overruled the point of order, on the ground that any motions which are allowed by the rules of the House and which pertain to the main question are in order at any period of the progress of the main question 2050

Points of order, rulings on—*Continued.*
Mr. Wood, of New York, made the point of order on a motion submitted by Mr. Lane to reconsider a vote, that, the previous question being in operation, the motion to reconsider was not in order. Mr. Banks made the further point of order that the previous question must be exhausted before the motion to reconsider can be entertained; and, further, that it was not in order to move the reconsideration of a vote on ordering the main question when it is partly executed. The Speaker overruled the point of order and held the motion to be in order, on the ground that in the event of an affirmative vote on a question of reconsideration it is immediately divested of the previous question, and therefore by analogy admitted the motion to reconsider 2050
Mr. Vance, of Ohio, moved that Mr. Walling be excused from voting on the resolution submitted by Mr. Poppleton, as amended by the substitute submitted by Mr. Wood, of New York. Mr. Walling having asked to be excused from voting thereon. The Speaker declined to entertain said motion. From this decision Mr. Walling appealed. The Speaker declined to entertain the appeal 2055
Mr. O'Brien having claimed the floor to submit a resolution notifying the Senate of the action of the House, the Speaker stated that he had already allowed a vote to be taken on every legitimate legislative motion. He had allowed the motion to reconsider to be voted upon whenever it has been made, so that the House might have an opportunity to correct any error it might have committed. The House has had an opportunity to vote on the motion to lay on the table the propositions themselves, and on the motions to reconsider the vote upon those propositions. Now the House has advanced to a judgment upon the objection, and as far as the Chair is concerned it is his duty, by the terms of the act, mandatory and ministerial, to notify the Senate to that effect, and he would therefore direct the Clerk accordingly, and that the House is now ready to meet the Senate to proceed with the counting of the electoral votes 2054
Mr. Hooker made the point of order that a motion submitted by Mr. Wood, of New York, was not in order, a motion for a recess having just been voted on. The Speaker sustained the point of order 2057
Mr Conger made the point of order that a bill (H. R. No. 4686) reported by Mr. Field, from the select committee on the privileges, powers, and duties of the House, "to provide an effectual remedy for a wrongful intrusion into the office of President and Vice-President" could not be reported or considered pending a motion to suspend the rules; which motion he claimed to have made before the said bill was read. The Speaker held the report made by Mr. Field from the said committee to be first in order, a question of high constitutional privilege being involved 2126

Vermont, the State of, electoral vote of, for President and Vice-President—
proceedings in counting the—
objections to, presented in joint meeting of the two Houses. 2021
resolutions, presented by Mr. Poppleton, that the refusal of the President of the Senate to open, in the presence of the Senate and House, a sealed package purporting to be the electoral vote of Vermont was a violation of law and of the privileges of the House, and that the Senate be requested to meet the House in joint session, to the end that said package purporting to be a certificate of the electoral vote of Vermont be opened by the President of the Senate, and that the proceedings thereafter be held according to law 2026
Mr. Wood, of New York, made the point of order that the foregoing resolutions were not in order under section 1 of the electoral act 2026
The Speaker ruled that, while in his opinion a grave mistake and wrong had been committed in the joint meeting of the two Houses yesterday, by the refusal of the presiding officer to receive, even for opening and reading for information, a package which had all the surroundings of an authentic and duly attested paper in relation to an electoral vote from the State of Vermont, he was also of opinion that there was no power in the House to review the decision of the presiding officer of the joint meeting. The Speaker further stated that he was, however, of opinion that so much of the paper submitted by Mr. Poppleton as requests the return of certain papers from the Senate, alleged in the preamble to have been taken away in an undue manner, was in order. Whereupon Mr. Poppleton modified his resolution in accordance with the foregoing decision of the Chair. Discussed, amended, and a substitute for adopted 2025, 2027, 2031-2054
Mr. Knott submitted a substitute for the resolution, requiring the President of the Senate to open the package in the presence of the two Houses, and that if it be found to contain a certificate of election, the same shall be submitted, together with the certificate read in the presence of the two Houses, to the electoral commission for its judgment and decision, and that until such order be made the House will not be ready to meet the Senate to proceed with the count of the electoral vote. Discussed and disagreed to 2032-2048
Mr. Hopkins submitted a substitute for the resolutions substantially the same as the foregoing, which was disagreed to 2049
Mr. Wood, of New York, submitted, as a substitute for the resolution, an order, that the vote of Henry N. Sollace, claiming to be an elector from the State of Vermont, be not counted. Discussed and agreed to 2032, 2054
